Welcome message

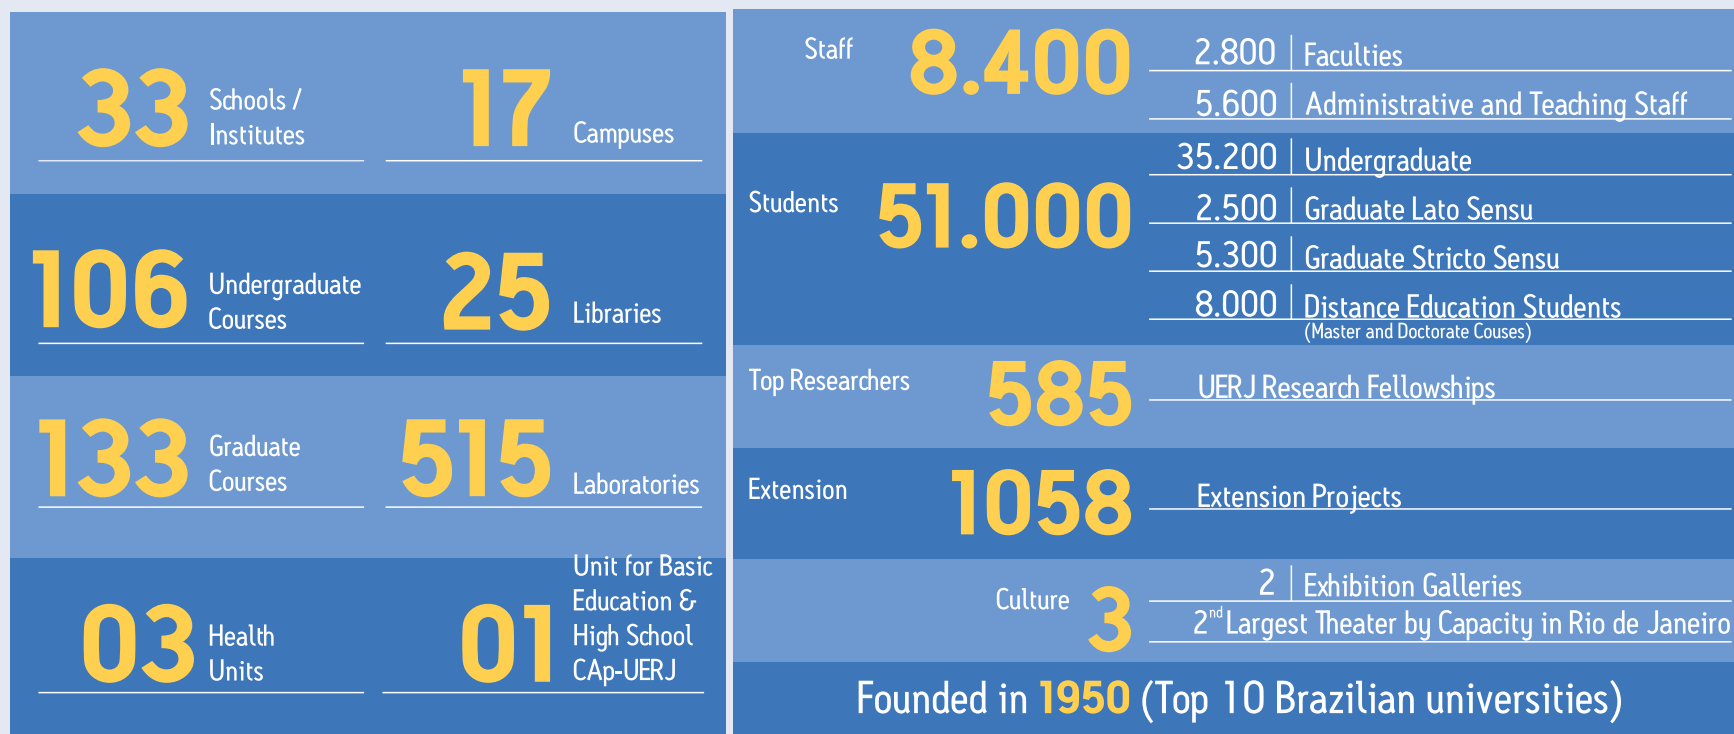

UERJ is a comprehensive university with schools and institutes covering technical, biomedical, natural, social sciences and humanities, promoting education, research, extension and innovation.

UERJ welcomes students, faculties and researchers from abroad to collaborate and study with us.

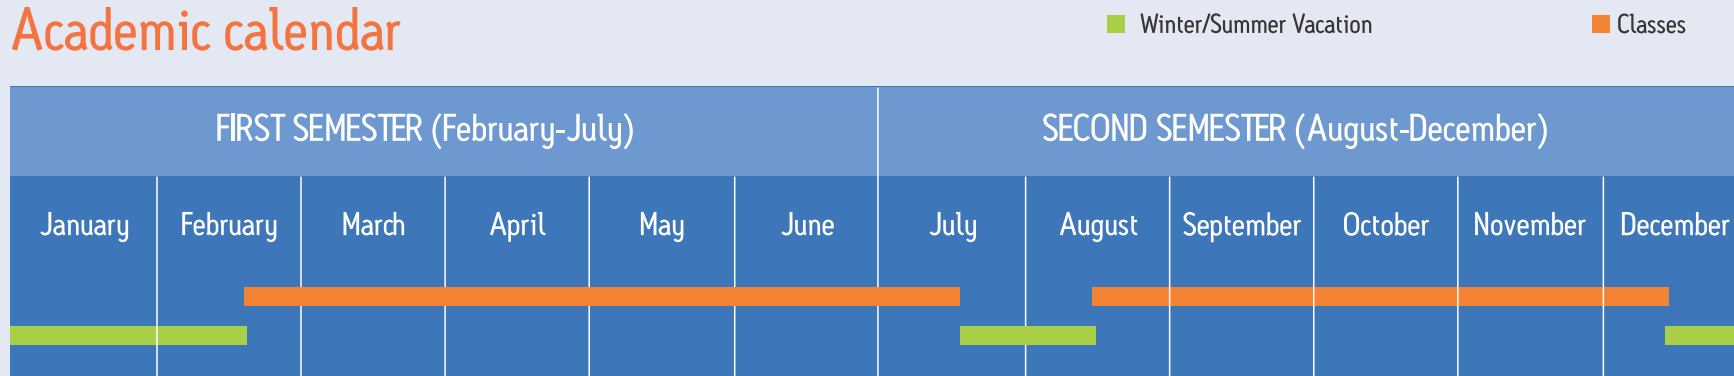

We are aware that the benefits of a university with a high degree of internationalization reach undergraduate and graduate education, research and extension. It broadens the horizons of our students, the whole community and the projects of the institution in a globalized world providing solutions to the regional and global issues.

Because of this, UERJ is intensifying the internationalization policies, expanding and diversifying international agreements, exchanging students and faculties, receiving international delegations, submitting projects with international partnerships and moving towards double diploma and summer/winter courses.

UERJ at a glance

Academic calendar

UERJ

Rio de Janeiro State University (UERJ) was founded in 1950 and since then it has grown and established itself as one of the main higher education institutions in Brazil.

Its importance in the national and international scene is confirmed by the high quality education, the excellence of the scientific research and the hundreds of cultural projects promoted by the Institution.

As a public University, its mission is based on the principles of equality and plurality. UERJ was the precursor in the implementation of quota system as an affirmative action and an instrument for social inclusion of less favorable segments of the society in undergraduate courses.

UERJ good practices in internationalization are based on:

- Keeping up the high standards of undergraduate and graduate courses;
- Excellence and sustainability in research;
- Expanding the international mobility of undergraduate and graduate student programs;
- Implementing new double certification programs;
- Human resources training within programs of excellence for both undergraduate students and university staff;
- Establishing new research programs and projects;
- Stimulating copyright and patents programs;
- Technological innovation and partnership with the industry;
- Promotion of the special developed programs: international internship program in the health area;
- International research cooperation with the visiting professor program;
- Portuguese and Brazilian culture course for foreigners; and
- Summer courses that are due to start in June 2019.

MAP OF THE STATE OF RIO DE JANEIRO

International Cooperation Program

The mission of UERJ is to promote and disseminate knowledge of science and technology, culture and arts through education, research and extension. Its mission is based on the excellence of all the fields of knowledge maintaining respect for diversity and free debate of ideas.

UERJ aims to train and form professionals capable of constant critical learning, prepared to act on the basis of ethical principles and fully exercise its citizenship, thus contributing to the sustainable development of the society.

It is a commitment of UERJ to contribute to overcoming local problems of the municipalities of the State of Rio de Janeiro, getting involved in the potential of each region, and acting in an expressive way for the improvement of social and economic conditions of the communities. The creation of the academic units in the interior of the State of Rio de Janeiro confirms the social responsibility of UERJ with the population of the State of Rio de Janeiro.

In carrying out its mission as a Brazilian educational institution, UERJ is

frequently concerned to attend the public and constantly improves its services.

UERJ was a pioneer in the creation of its own Ombudsman's Office: it was the first public university in the State of Rio de Janeiro to create this exercise of citizenship.

UERJ supports the student scientific production by offering fellowships for undergraduate students linked to the Institutional Program for Scientific Initiation Scholarships (Pibic), funded by UERJ and CNPq.

UERJ has about 1500 stricto sensu graduate scholarships, offered by CNPq, Capes and Faperj.

News about summer/winter courses is coming for 2019!!! Several courses in several areas of knowledge will be offered: Engineering, Biology, Social Sciences, Oceanography, Law, among others.

Agreements for double degree programs are in progress to offer courses very soon. Partners from Portugal and Spain.

Student Voices

Carolina LOUREIRO DE ALVES PEREIRA

UERJ - Bachelor's in Law
Brazil

In 2017 I did the academic exchange for the Civil Law Faculty at Université d'Ottawa, Canada. The experience was enriching. I studied very interesting subjects, such as Internet Law, Environmental Law and Comparative Constitutional Law with both Canadian and foreign students. It was amazing to develop my linguistic abilities in English and French. I studied in the capital of the country and I was able to

visit the main Canadian institutions, such as the Supreme Court and the Parliament. Finally, I will always be grateful to UERJ International Cooperation Office for the academic agreements signed with partner institutions, providing this kind of experience for their students. This is my brief report to the future exchange students from UERJ with my best wishes!

Erika MIYASHITA TOKYO UNIVERSITY OF FOREIGN STUDIES, Japan

School of language and culture studies
mar/2003 - feb/2004

I was one of the first exchange students from the course at my home institution.

I was at UERJ in 2003, exactly 15 years ago, for a year of exchange. What impressed me the most at UERJ was the liberty for the exchange students of choosing any subject of interest to study. In Japan, I took a Portuguese Language Course and it was a very specific

area. When I arrived in Brazil, I did not resist the challenges and I enrolled in the journalism, photography, social assistance subjects and even capoeira. I made several Brazilian friends and until today we keep in touch. This coexistence helped me a lot with learning Portuguese language as well as with better understanding of the Brazilian culture.

Mathias BRUM

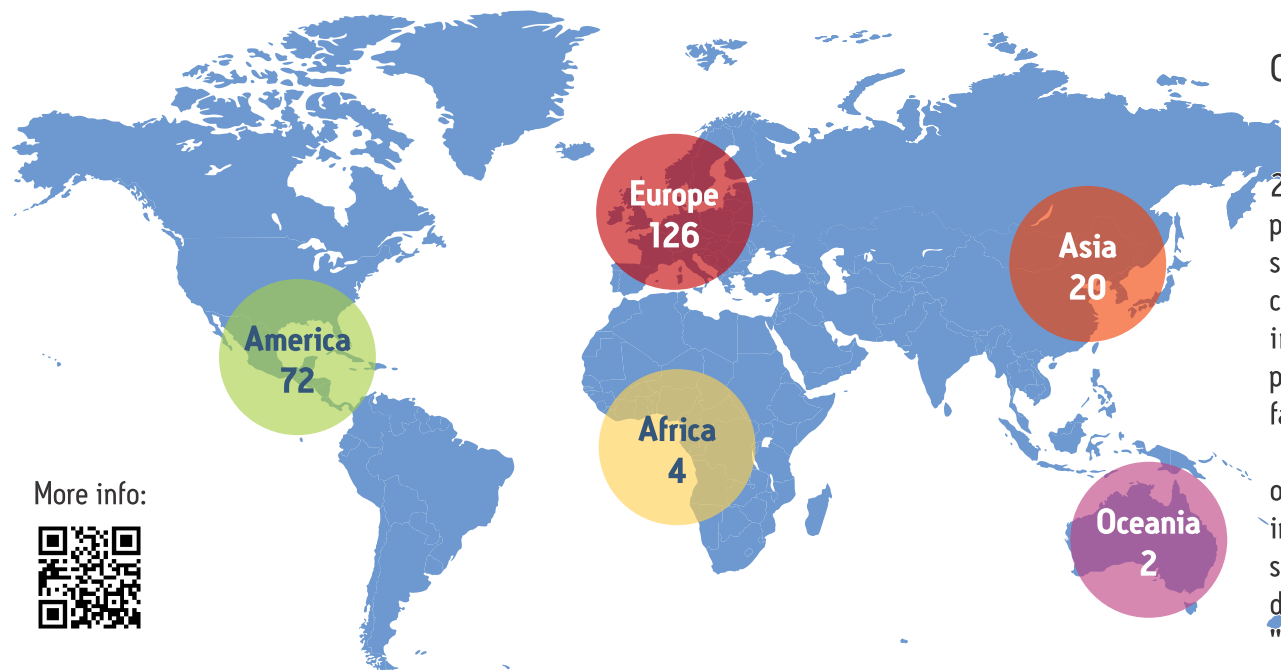

UERJ - Bachelor's and Teaching Degree in Portuguese/German Language and Literature
Brazil

I studied two semesters (2017-2018) at Friedrich-Schiller-Universität Jena, Germany, on behalf of the exchange program granted by DAAD-CAPES between my university and Jena. I had the opportunity to study not only DaF (German as a Foreign Language), but also Germanic and Romanic subjects. This experience helped me to deepen and improve the knowledge of the language and the most

recent techniques and technologies in teaching German. Moreover, I participated in events and extracurricular activities, traveled across the cities and countries, met new people and cultures, which introduced me to the different world views and added a lot to my cultural baggage. Finally, it was an amazing and transformative experience!

International Cooperation Program

More info:

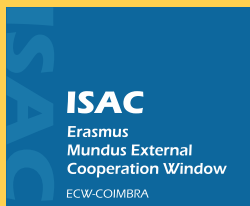

The International Cooperation Office - DIRCINT

DIRCINT was launched at UERJ in 2001. Since its very beginning the main purpose of the DIRCINT-UERJ has been to stimulate initiatives for interdisciplinary collaboration with foreign partner institutions by fostering cooperation programs focused on the students, faculties and researchers exchange.

Between 2008 and 2014, the number of new agreements with foreign partner institutions increased a lot due to mutual student exchange, highlighting the double degree for Phd programs called "cotutelle de tesis".

Education Experts (EHEEs)
Rio de Janeiro, hosted by UERJ
May 3-5, 2017

Campus Facilities

Rede Sirius Libraries

Rede Sirius - the UERJ library network – gathers 25 libraries, 4 administrative offices and a digital library for theses and dissertation. They are meant to cover all the university areas.

19 libraries are located in the city of Rio de Janeiro and 6 are distributed throughout all external campuses over the state, in other cities and towns: Duque de Caxias, Nova Friburgo, Petrópolis, Resende, São Gonçalo and Teresópolis.

Rede Sirius' libraries are organized by area and user profile – Biomedical, Social Sciences, Education and Humanities, Technology and Sciences, and School and Community Libraries.

Free local consultation of printed and online collections are available for students, professors, researchers, workers and other users, regardless of being registered or having any kind of relation with the university. UERJ's students, professors and employees who register at any of the libraries are given access to all the products and services, such as book loan, on-line loan renovation and reservation. Rede Sirius also offers the service of standardization and publication of theses and dissertations, an on-line preparation of catalog data and the APP Sophia, an application for searching Rede Sirius' collections, reserving and renovating book loans, available for Android (Google Play) and iOS (App Store).

University Restaurant

The University Restaurant was inaugurated in 2011. It is located in Maracanã Campus, in the same building where the Noel Rosa Theater is located. The space has 1700 m² of area, 330 places, places for hand hygiene (alcohol gel), men's and women's bathrooms and also has nutritionists to elaborate the menu to be served, indicating the calories of each food.

Sports activities at UERJ

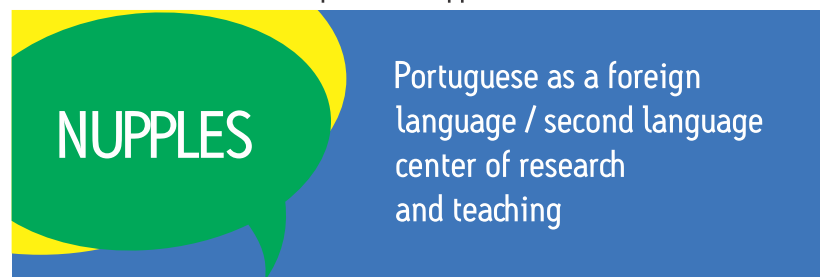

The sports activities at UERJ are organized by the students in each of the Schools and Institutes. These groups are so-called "Athletics". Students get organized into groups to form sports teams, such as futsal, volleyball, basketball and swimming.

NUPPLES

Its mission is to promote research and training in Portuguese as a second language. Its values are: respect for intercultural difference; preservation of the Brazilian language and culture; inseparability between theory and practice; cultivation of an investigative and integrative spirit. Students coming from partner institutions by the UERJ exchange program can apply for this course. Price: \$70 per semester

For more information: <http://www.nupples.online/>

Candido Portinari Gallery

The Candido Portinari Gallery is located in a privileged space in one of the main entrances of UERJ Maracanã Campus. Exhibitions of the artists that reflect the history of art and culture in Brazil are integrated with the university activities, such as Emiliano Di Cavalcanti (1992), Nazareth Costa (1996), Fayga Ostrower (1997), Cristina Salgado (1998), Malu Fatoreli (1998), Livia Flores (1999) and Leila Danziger, Sebastião Salgado (2000).

Services opened to the population of the State of Rio de Janeiro

HUPE - HOSPITAL UNIVERSITÁRIO PEDRO ERNESTO

Pedro Ernesto University Hospital

www.hupe.uerj.br

The Pedro Ernesto University Hospital (Hupe) is a key element in UERJ's teaching, research and health care structure. Besides its importance for the health system of the State of Rio de Janeiro, Hupe graduates new professionals and produces knowledge. With 560 beds and 16 operating rooms, the hospital is able to perform surgeries in more than 60 medical specialties and sub-specialties, including sophisticated procedures such as heart surgery and kidney and heart transplants. Hupe has no emergency, attending only to patients referred by other public health units.

UERJ - Faculty of Dentistry

www.odontologia.uerj.br

The Dental Teaching Clinic (COE), is linked to the Faculty of Dentistry and is a space for undergraduate and postgraduate students training.

The COE provides quality health care for the population of Rio de Janeiro at a symbolic price, with 800 visits per week, opened from Monday to Friday, from 8 am to 7 pm.

The clinical activities of all the practical subjects of the undergraduate, specialization, master's and doctorate courses are developed with permanent orientation of the professors of the Faculty.

Instituto de Aplicação CAP-UERJ www.cap.uerj.br

Instituto de Aplicação Fernando Rodrigues da Silveira (CAP-UERJ) is a public educational institution whose main principles are the continued teacher education through the promotion of quality basic education for the population of the State of Rio de Janeiro.

The CAP-UERJ receives new students annually for the first and sixth year of basic education, through a public selection process.

Candidates for 1st year of elementary school are admitted by sortition and begin their education in the age group of 6 years, with literacy as a main purpose.

Candidates for the 6th year of elementary school are admitted through a selective process consisting of exams, with contents in Mathematics, Portuguese Language and Writing.

The CAP-UERJ, as a space for teacher training, research and extension, is committed to the students and their families, providing experiences and challenges to the students of basic education.

UnATI: an innovative program in Brazil www.unatiuerj.com.br

The Open University for the Elderly (UnATI) is a World Organization (WHO) Collaborating Center for Elderly Health Promotion. It is an Elderly Program Studies, Debates, Research and Care, that aim to contribute to the improvement of physical, mental and social health levels of the elderly, using the existing capabilities at the university, in order to become a center of public health, sociotherapy, delivery of community services, ergotherapy, research and gerontological action within the institution. The structure of UnATI is based on 3 areas: teaching, extension and research. Over one hundred and thirty courses are being offered each semester for the elderly in many different areas. They are designed to provide personnel qualification for those who work with the elderly in up-to-dating courses.

About Rio de Janeiro

The State of Rio de Janeiro has many natural beauties and many attractions for the visitors from outside.

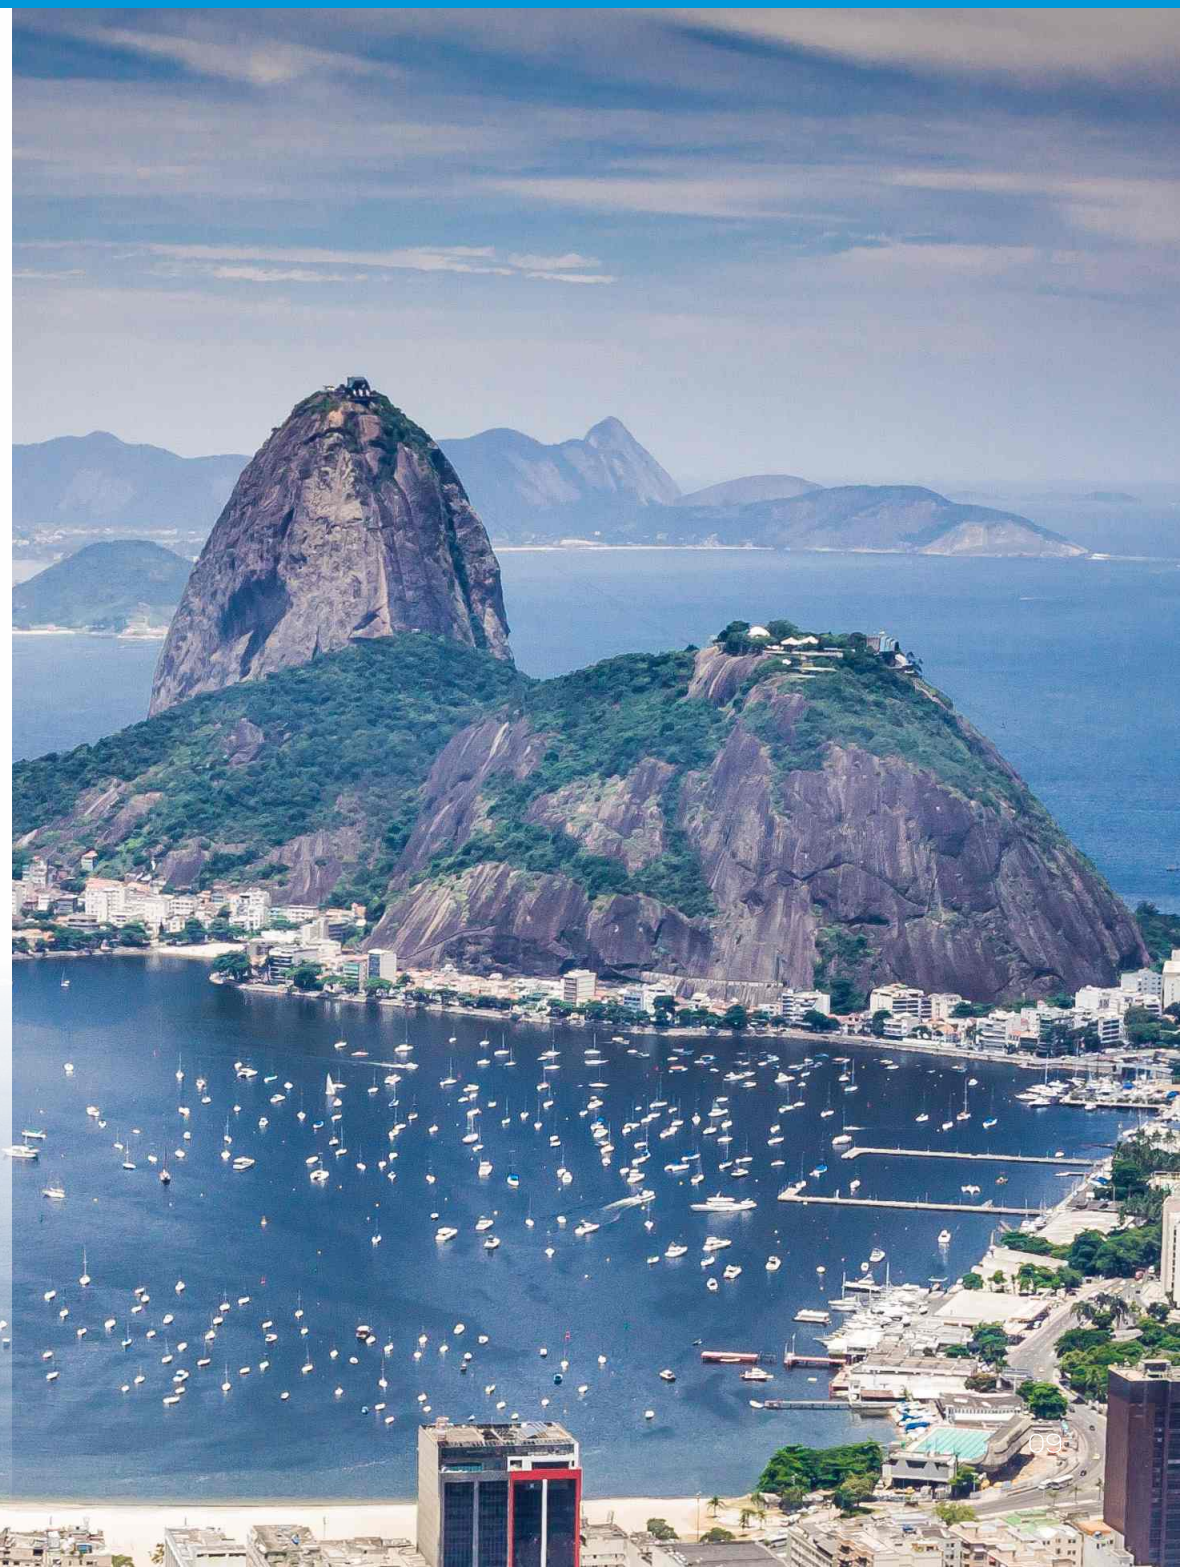

There are many historical and cultural attractions, destinations beyond the Capital where it is possible to get in contact with the traditions, folklore, architectural heritage of various influences, as well as a very diverse gastronomy that conquers visitors.

The Government of the State of Rio de Janeiro, through the Secretary of Tourism and the Official State Agency - Turisrio, provides the detailed information, so that the visitor can plan the itinerary enjoying all the charms and tourist routes throughout the State of Rio de Janeiro, which comprises the charm of the capital and its beautiful landscapes, stunning islands, tourism in the Sierra with all its beauty and historical legacy, the interior and its coffee farms, besides the charming coastline of the state and its wonderful beaches.
